Site Data Search

Internationally designated sites:

The following sources were searched:

Special Areas of Conservation	<i>published March 2016 - revised July 2019</i>
Special Protection Areas	<i>published March 2016 - revised June 2019</i>
Ramsar sites	<i>published March 2016 - revised June 2019</i>

The following Internationally designated sites are in or partly within the search area, and are shown on the accompanying map:

<i>Designation</i>	<i>Name or location of site</i>	<i>Grid Reference</i>
Special Area of Conservation Special Protection Area	North Pennine Moors	SE175717

Nationally designated sites:

The following sources were searched:

Sites of Special Scientific Interest	<i>published 14/09/2017 – revised June 2019</i>
National Parks	<i>published 01/08/2016 – revised February 2019</i>
Areas of Outstanding Natural Beauty	<i>published 11/05/2015</i>
National Nature Reserves	<i>published March 2016 - revised May 2019</i>

The following nationally designated statutory sites are in or partly within the search area, and are shown on the accompanying map:

<i>Designation</i>	<i>Name or location of site</i>	<i>Grid Reference</i>
Site of Special Scientific Interest	East Nidderdale Moors (Flamstone Pin - High Ruckles)	SE175717
Area of Outstanding Natural Beauty	Nidderdale	Whole of search area

We do not hold full details of Statutory sites. For further information please contact Natural England. Their website is at:

<https://www.gov.uk/topic/planning-development/protected-sites-species>

The Protected Areas Designations Directory and further information on Statutory sites can be found at: <http://jncc.defra.gov.uk/page-1527>

Locally designated and non-Statutory sites

The following sources were searched:

Local Nature Reserves *published 01/032016 - revised June 2019*

There are no LNR within the search area.

North Yorkshire SINC [Sites of Importance for Nature Conservation]

Version: NY_SINCs V9.6

October 2019

The following SINC are in or partly within the search area, and are shown on the accompanying map:

Site Id	Site Name	Grid Reference	SINC Status
SE27-34	Lawnwith Two Acre	SE246742	Candidate SINC
SE27-25	Lumley Moor Reservoir	SE222710	SINC
SE27-32	Stripe Wood	SE238749	Candidate SINC
SE27-22	North Close Wood	SE243747	SINC
SE27-33	Kex Beck Wood	SE248742	SINC
SE27-26	Mowbray Castle	SE237745	Candidate SINC

A leaflet explaining about North Yorkshire SINC is available to download from the NEYEDC web site: <http://www.neyedc.org.uk/wp-content/uploads/2015/01/SINC-leaflet.pdf>

Deleted SINC

North Yorkshire SINC that have been deleted by the North Yorkshire SINC Panel have been surveyed and assessed against the SINC selection guidelines and found not to qualify as a SINC. We still report these sites in this report as some district planning authorities may still use the list of SINC in their local development plan and not the dynamic process developed by the North Yorkshire SINC group. As such, SINC that have been deleted should be considered for any planning applications. In addition these sites may not be of sufficient quality to qualify as a SINC but are still likely to be of higher ecological quality than other land in the area.

A full species and habitat map along with a citation is available for all SINC in North Yorkshire, however a charge of £25 is levied by the SINC steering group for this data. If you wish to receive a copy of this information for the SINC identified in this report please contact us.

Yorkshire Wildlife Trust Reserves

Version: YWT Reserves

January 2019

There are no YWT reserves within the search area.

Site-based Habitat data:

Areas of habitats in or partly within the search area occurring in the Natural England Ancient Woodland Inventories and/or Priority Habitats are shown on the accompanying map, and are listed below:

Ancient Woodland Inventory

Version: Ancient Woodlands

July 2019

Habitat type	Location or comments
Ancient and Semi-Natural Woodland	Mowbray Castle Wood; wood near Dalton Lodge; North Wood
Planted Ancient Woodland Sites	North Wood; Carlesmoor Beck Wood; Biggin Wood

 Your Ref: KMLD Parish
 Date: 19/11/2019
 Search area: Parish boundary, centred at SE193726

Priority Habitat Inventory

Version: *Priority Habitats Inventory*

August 2017

<i>Habitat type</i>	<i>Location or comments</i>
Coastal and floodplain grazing marsh	Lumley Moor
Blanket bog	Kirkby Malzeard Moor; Dallow Moor
Deciduous woodland	Several parcels throughout search area
Grass moorland	Skell Gill
Lowland fen	Lumley Moor
Lowland heathland	SW of Bagwith House
Traditional orchard	Laverton, W end of village
Upland heathland	Kirkby Malzeard Moor; Dallow Moor

Date: 19/11/2019
Search area: Parish boundary, centred at SE193726

Species data search

Enclosed is a list of species found within the search area together with a spreadsheet listing the species records found. Please note that a lack of survey information for any particular area or taxonomic group does not necessarily mean that there is no nature conservation interest present. We would therefore recommend that a site survey is carried out in order to assess any ecological interest that might be present before proceeding with the development.

The species list indicates the Notable and/or Protected designation[s] for each species. Where 'all records' have been requested, the Notable and/or Protected species will be indicated by grey shading on the species list and species records spreadsheet.

By default, we return data for the past 50 years, but if older records are required these may be obtained at additional cost from NEYEDC upon request.

In addition to the records shown on the enclosed sheet, there records within the search area held by the North Yorkshire Bat Group. For further information on these records, please contact the North Yorkshire Bat Group directly, contact details for which are given below.

One particular point to bear in mind is that many bridges provide good opportunities for bats and support bat roosts. Please consult the relevant Bat Group regarding this aspect if the proposal is likely to require working close to or within the structure of any bridge. Bats are European Protected Species under the Conservation (Natural Habitats &c.) Regulations 1994. As you are probably aware, should a proposal be likely to affect or disturb bats and/or their roosts and therefore require derogation from the Regulations, a licence application to the Wildlife Licensing Unit, Natural England, is required in advance of the works commencing.

North Yorkshire: John Drewett, Chairman
North Yorkshire Bat Group
No Man's Common, Arrathorne, Bedale, DL8 1NA.
